“ Dear John, Tom, Maureen and David,

So very sorry to hear about the loss of your parents. I babysat for your family, and thought the world of them both, as well as you. I remember your Dad for his questions. When issues arose in life he would ask a lot of questions to help me understand, rather than just tell me how I should feel. I remember your Mom for her kindness, humor, and her smile. She shared all of those things with me when she knew I needed it after my own father died, and even took me to Boston one Black Friday, teaching me how to be a bargain shopper! She was so much fun. I still think of that trip when Black Friday rolls around. She also loved marshmallow fluff on toast back then, and I think of her still whenever I treat myself to that breakfast treat. They were truly the best, and I was so lucky to know them!

There is a Native American belief that when you part, a bit of you remains with those you loved. I hope that in time that will give you comfort, as well as the memories that will make you smile again one day. You are in my thoughts and prayers.

“ Dear Tom,
Joanne and I are so sorry to hear of the loss of your Mother. It is almost unbelievable that she is joining your Father in heaven so soon and powerfully symbolic that she departed on their wedding anniversary. Hold onto your memories and we will keep your family in our prayers.
Sincerely,
Ed Doherty

“ Dear John, Tom, Maureen and David,
Words alone can't express how sorry I was to hear about your mother's passing. Every time I saw her, your mother's smile would light up a room. I can't imagine how you all feel to have lost both your parents in such a short time.

I will always love and remember your parents for their kindness and thoughtfulness, and for bringing up four such wonderful children.

I pray that your fond memories of your parents will always be with you, and that you will remind your children and grandchildren that they are part of such an incredible family that began with your two loving parents.

God Bless you and your entire family.
